Date of Proposal Meeting (at least 2 weeks after written proposal given to members):

Action Taken by Second Year Project Committee:

( ) The plans described offer a reasonable basis on which to proceed, and satisfy the Department's second year project requirement. No revisions to the written proposal are required.

( ) The plans described, modified as noted below, offer a reasonable basis on which to proceed and satisfy the Department's second year project requirement. Only minor revisions to the written proposal are required.

( ) The second year project has potential, but needs major revision that will require substantial additional discussion and planning. The student should meet again with their advisor to discuss a plan for revision, and the student should undertake edits to their written proposal to reflect the major revisions to the research project. The student should send the revised proposal to their committee for further review.

( ) In our opinion, the plans described are an unlikely basis for an adequate second year project and the student has failed to satisfy the requirement.
